

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Abante 80% Proteccion Creciente Fund Share Class A EUR (ISIN: IE00BZ13RH88)

The Abante 80% Proteccion Creciente Fund (the "Fund") is a sub-fund of FundLogic Alternatives Plc (the "Company").

OBJECTIVES AND INVESTMENT POLICY

- The Fund's investment objective is to provide shareholders with long term exposure to the performance of the Portfolio Strategy (as described below) with 80% of the highest NAV (from the launch of the Fund onwards) being protected as a minimum exit net asset value
- The Portfolio Strategy consists of investments in a portfolio of securities and other assets ("Reference Strategy") determined from time to time by AbanteAsesores Gestion SGIC SA ("Sub-Investment Manager") and exposure to an effective overnight interest rate for the Euro ("Cash Component"). The allocation between the Reference Strategy and the Cash Component aims to control the risk of the Portfolio Strategy by adjusting the allocation to the Reference Strategy if the risk of the Reference Strategy changes over a specified period. The Fund may gain exposure to the Portfolio Strategy through financial contracts known as derivatives ("FDI")
- The Fund may invest in a wide range of instruments including fixed income securities, equity securities, currencies and securities with equity characteristics
- The Fund may be leveraged up to 425% of its net asset value
- Costs incurred in the use of FDIs may have a negative effect on the Fund's performance
- The investment manager monitors the Fund daily and has discretion to change the asset allocation
- Any income from the Fund will be re-invested and the Fund will not pay out any dividends.
- The value of the Fund is calculated and published daily except as set out in the Company's prospectus and the Fund's supplement (collectively "Prospectus"). Investors can buy and/or sell back their shares daily

RISK AND REWARD PROFILE

- The Fund is assigned to this category because its share price is expected to fluctuate moderately due to the investment policy applied

You should be aware that:

- Past performance and/or simulated data may not be a reliable indicator of the Fund's future performance
- The lowest risk category does not indicate a risk free investment
- The risk and reward category shown above is not guaranteed and may move down or up over time
- There is no assurance that the Fund will achieve its investment objective and you may lose money. The Fund's performance will be affected by market movements

Other risks that you should be aware of, which may not be captured by the Risk and Reward Indicator, include:

- The Fund will be exposed to the credit risk of the parties with which it transacts. It also faces the risk that the contracts it enters into will not be settled in the intended manner
- Based on the risk strategy, there is a risk that there is no exposure to the Reference Strategy for certain periods. In this case, shareholders will be exposed to overnight interest rates which might be negative
- The Fund may use certain investment strategies that could result in the Fund losing money in a rising market
- The entity with whom the Fund enters into derivative contracts may become unable to meet its financial obligations under the contract
- The use of derivatives involves a higher level of complexity than a direct investment and may multiply the gains or losses by the Fund on a given investment or its investments generally. Additionally, the valuation of certain derivatives may depend on multiple market parameters
- Investment in the Fund may be affected by operational risks at the investment manager, the administrator and other service providers to the Fund
- In certain instances, the directors of the Fund may temporarily suspend trading in Fund shares and this may affect your ability to buy or sell shares
- The Sub-Investment Manager manages the Reference Strategy and so the success of the Fund depends, among other things, upon the expertise of the Sub-Investment Manager
- The Fund performance is dependent on factors other than the Reference Strategy's performance. Thus shareholders will not be able to derive the net asset value of the Fund from an increase of the level of the Reference Strategy alone
- The Fund is subject to a number of risks relating to the insolvency of the Fund's depository and sub-custodian including the loss of the Fund's assets held in custody due to the lack of segregation or client money protection, or due to the incorrect operation of the custody

accounts

- The Fund does not offer full capital protection. Additionally, as Morgan Stanley and/or its affiliates act as counterparty to the Fund, if Morgan Stanley and/or its affiliates became insolvent, the capital protection obtained through the FDI might fail

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	Not Applicable
Exchange charge	Not Applicable
<i>This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.</i>	
Charges taken from the fund over a year	
Ongoing charges	1.60%
Charges taken from the fund under certain specific conditions	
Performance fee	Not Applicable

- The entry and exit charges shown are maximum figures. In some cases, you may pay less or there may be no charge. You can find out the actual entry and exit charges from your financial adviser or distributor
- The ongoing charges figure is based on the expenses for the year ending 31 July 2017. This figure may vary from year to year
- These charges exclude (i) the costs of buying or selling assets, except in the case of an entry/exit charge paid by the Fund when buying or selling shares in another fund and (ii) performance fees.

For more information about charges, please refer to the "Charges and Expenses" section of the Fund's supplement, which is available at www.fundlogic.com

PAST PERFORMANCE

- The Fund and this share class were launched in 2017

PRACTICAL INFORMATION

- Depository: Northern Trust Fiduciary Services (Ireland) Limited
- Sub-Custodian: Morgan Stanley and Co. International Plc
